Defining Your Needs and Goals

Before starting any building or renovation project, it's essential to clearly identify what you want to achieve. Consider the following:

- Number of rooms and their functions
- Required features such as storage, natural light, or specific layouts
- Future expansion plans or adaptability
- Budget constraints and financing options

Having a clear vision helps streamline decision-making and ensures that the final outcome aligns with your expectations.

Budget Planning and Cost Management

A realistic budget is fundamental to making good decisions throughout the building process. To establish your budget:

- Calculate total available funds, including savings and loans

- Exterior finishes: brick, stone, siding, or stucco for weather resistance
- Interior surfaces: flooring, wall finishes, and ceilings for comfort and style

- Energy-efficient options: insulation, windows, and HVAC systems
