- **Going Concern Principle:** Financial statements are prepared with the assumption that the entity will continue to operate indefinitely.

3. How do you handle tight deadlines during financial reporting?

Employers want to assess your time management and stress handling skills.

Sample Answer:

> "When facing tight deadlines, I prioritize tasks based on their urgency and importance. I create a detailed schedule, breaking down complex tasks into manageable steps. Afterwards, I analyze the causes to implement improvements for future projects."

9. What is depreciation, and how is it calculated?

This tests your understanding of asset management.

Sample Answer:

> "Depreciation is the process of allocating the cost of a tangible fixed asset over its useful life. It reflects the asset's wear and tear over time. Common methods include straight-line depreciation, where the same amount is expensed each year, and declining balance methods, which accelerate depreciation in early years. For example, using the straight-line method, if an asset costs \$10,000 with a useful life of 5 years, annual depreciation expense would be \$2,000."

10. Can you explain the concept of goodwill?

This assesses your knowledge of intangible assets.

Sample Answer:
