Understanding organisational behaviour (OB) is essential for managers, HR professionals, and employees alike, as it bridges the gap between individual motivations and organisational goals.

The Importance of Organisational Behaviour

Organisational behaviour is crucial because it helps in:

- Improving employee performance and satisfaction
- Facilitating effective communication
- Managing change and conflict
- Building strong organizational cultures
- Enhancing leadership effectiveness

Greenberg's work emphasizes that behaviour in organisations is not merely a result of individual traits but also a product of organizational structures, culture, and external environments.

Foundations of Organisational Behaviour

Key Concepts in OB

Organisational behaviour encompasses several core concepts, including:

- Individual behaviour: Attitudes, personality, motivation, perception, and learning
- Group behaviour: Team dynamics, communication, leadership, and decision-making

- Organisational systems: Culture, structure, policies, and external influences

Understanding these layers helps in diagnosing issues and designing interventions that improve overall organisational effectiveness.

The Scientific Approach to OB

Greenberg advocates a scientific approach to studying behaviour, emphasizing:

- Empirical research and data collection
- Testing hypotheses about behaviour
- Applying findings to real-world organisational contexts

This approach enables evidence-based decision-making that aligns with organisational objectives.

Individual Behaviour in Organisations

Personality and Attitudes

Personality traits significantly influence workplace behaviour. Greenberg discusses the Big Five personality traits:

- Openness
- Conscientiousness
- Extraversion
- Agreeableness
- Neuroticism

These traits affect job performance, teamwork, and adaptability. Attitudes, including job satisfaction and organizational commitment, also play a pivotal role in determining behaviour.

Motivation Theories

Understanding what motivates employees is key to managing behaviour. Greenberg covers several motivation theories:

- **Maslow's Hierarchy of Needs:** Progression from physiological needs to self-actualization.
- **Herzberg's Two-Factor Theory:** Differentiating hygiene factors and motivators.

- **McGregor's Theory X and Theory Y:** Assumptions about employee motivation affecting management style.

- **Expectancy Theory:** Motivation based on expected outcomes and value.

Applying these theories helps managers design environments that enhance motivation and productivity.

Perception and Decision-Making

Perception influences how individuals interpret organisational events. Biases like stereotyping and selective perception can lead to misjudgments. Greenberg emphasizes that understanding perceptual processes is essential for effective communication and decision-making.

Group Behaviour and Dynamics

Teamwork and Group Development

Greenberg discusses the stages of group development:

Effective groups require leadership, clear roles, and open communication. Group cohesion and diversity impact performance.

Leadership and Influence

Leadership styles influence group behaviour. Greenberg explores:

- Transformational leadership

Impact of Structure on Behaviour

Organisational structure shapes behaviour by defining roles, responsibilities, and reporting relationships. The main types include:

- Functional
- Divisional
- Matrix
- Flat and hierarchical

Each structure influences communication flow, decision-making, and innovation.

Organisational Culture

Culture represents shared values, beliefs, and norms. Greenberg highlights that a strong, positive culture can promote ethical behaviour, engagement, and adaptability. Conversely, a toxic culture can lead to unethical practices and low morale.

External Influences on Organisational Behaviour
